

SPAY/NEUTER VETERINARY CLINIC

Spay 🐾 Neuter 🐾 Wellness

Announcement of Open Position

Position: Registered Veterinary Technician

Status: Full Time

Location: Spay Neuter Veterinary Clinic of the Sandhills (SNVC), 2709 Bragg Blvd, Fayetteville, NC 28303

Background of SNVC:

The Spay Neuter Veterinary Clinic of the Sandhills (SNVC) is dedicated to reducing overpopulation and improving the quality of life for pets through high quality, high volume spay neuter (HQHVSN) and wellness services. SNVC of Fayetteville has performed over 88,000 surgeries since opening at the end of 2007. The clinic moved from Moore County to Cumberland County at the start of 2021 to allow for expansion into a state of the art 6700 sq foot facility. The move allows SNVC to add wellness and dental services which are in high demand. In addition to the stationary clinic, SNVC has a mobile surgery unit that is used to reach out into the more underserved areas of the community for both surgery and vaccination clinics. SNVC serves as a training site for veterinary student externs and frequently have graduate veterinarians visit to work on surgical skills as training others in HQHVSN is extremely important to the entire team at SNVC.

Summary of Position:

The Spay Neuter Veterinary Clinic of the Sandhills has recently expanded and is increasing services offered to include preventative veterinary care, dentals, heartworm treatments, and pre-anesthetic bloodwork, in addition to spay/ neuter surgeries. Due to the expansion, SNVC is looking to hire additional staff to meet the increased demands. The Registered Technician would be in charge of training new staff, overseeing the wellness program, and assisting Veterinarians in surgery both at the stationary clinic and on the mobile surgery unit.

Duties and Responsibilities:

- Assisting with vaccine clinics and wellness visits
- Collecting samples and performing in house diagnostics
- Ensuring safe, effective and efficient medical processes from check in to discharge
- Assisting with pre-surgical medical screenings, patient inductions, surgical preparation and anesthesia monitoring
- Maintaining strict sterile environment for all surgeries
- Monitoring the health of all patients throughout the day
- Provide medical information to clients and answer questions as needed
- Assisting with post-surgery follow up at complimentary recheck appointments as needed

SPAY/NEUTER VETERINARY CLINIC

Spay 🐾 Neuter 🐾 Wellness

- Providing direction, support and training to additional veterinary support staff and volunteers as needed
- Performing dental services to include basic cleanings
- Assist with training and overseeing visiting Veterinary and Technician students

Skills and Requirements:

- Veterinary Technician Degree from an AVMA CVTEA or CVMA accredited program, an active Registered Veterinary Technician License or eligibility to obtain a Veterinary Technician license in North Carolina
- Leadership experience and strong mentorship/ training skills. Be able to lead through example and positive support.
- Candidates must work well with coworkers and the public, have a positive attitude, be hard working, easy-going and flexible
- Excellent attention to detail, organizational skills and ability to multitask
- Experience working in fast paced, high volume setting is desirable, but we are happy to train the right candidate.

Salary and Benefits:

SNVC offers a competitive salary based on experience. There is flexibility in scheduling allowing Technicians to enjoy nights and Holidays off with your family.

Full time benefits include paid time off, and paid holidays. SNVC offers a QHSRA reimbursement for health expenses, a Simple IRA retirement plan with matching, an allowance for continuing education, and stipend for professional licensing.

How is SNVC able to operate at low or no cost to owners?

SNVC is supported by the Spay Neuter Initiative Program which is a non-profit, 501(c)(3) charitable organization. SNIP allows SNVC to offer free to low-cost spay/neuter and wellness services thanks to generous private donations and grants. Owners are so grateful to receive the free or reduced cost services that the otherwise would not be able to afford!
